In <https://github.com/sagemath/sage/pull/35380#issuecomment-1563401704>,
Dima is sanctioning retaliatory behavior on PRs and repeats harmful accusations.

Thanks,
Matthias

To me, it's not clear to me that was his intended meaning. On the other hand, it's
hard for me to parse the grammar in his last post, but I've not read the entire thread.

Dear Matthias,

I had a look at the link you shared but could not come to the
conclusion that the breach (if any) of the Code of Conduct is
sufficiently clear that I must take immediate action here.

I added this to the agenda for the next meeting of the Code of Conduct
committee. We'll try to discuss the incident there and I will let you
know what's the outcome of that discussion.
