Hi sage-conduct committee:

As some of you are already aware, I have been the target of a pattern of severe abusive conduct by Dima Pasechnik. I have reported numerous instances of it to the previous sage-abuse committee, but have not received a consistent acknowledgement of the incidents, nor whether it will be handled as abuse. I have detailed records and will be able to re-send my reports if needed.

New incidents just in the past 48 hours:

- Insinuation that I act with bad intentions ("installed as (nonB)DFL"): <https://github.com/sagemath/sage/pull/37447#issuecomment-2003443422>
- Other accusations: <https://github.com/sagemath/sage/pull/37447#issuecomment-2002382674>, <https://github.com/sagemath/sage/pull/36753#issuecomment-2002092329>
- Publicly playing the victim about being blocked by me: <https://github.com/sagemath/sage/pull/37287#issuecomment-2003761838>, <https://github.com/sagemath/sage/pull/36753#issuecomment-2002092329>
- False allegations of abuse: <https://github.com/sagemath/sage/pull/37447#pullrequestreview-1943717234>
- Public denunciations of my work: <https://github.com/sagemath/sage/pull/37287#issuecomment-2003761838>, <https://github.com/sagemath/sage/pull/37287#issuecomment-2004526195>, <https://github.com/sagemath/sage/pull/36753#issuecomment-2002097503>

In particular, Dima is fully aware of his hostile conduct and explicitly justifies it:

<https://github.com/sagemath/sage/pull/36753#issuecomment-2002097503>

Matthias

Resending because I have not received an acknowledgment

Dear Matthias,

Unfortunately, I don't have the bandwidth to look into all of these right now. I believe that the first link you share has already been addressed but I am not sure about the others. I made sure that it will be taken care of.

Thanks,

julian

More abuse from Dima Pasechnik, which will need immediate attention.

In https://groups.google.com/g/sage-devel/c/Wjw2wcvgf8k/m/ynwiz66_AQAJ,
he -- once again -- accuses me of falsely accusing him of abuse.

Thanks, Nils, for the timely public response in

https://groups.google.com/g/sage-devel/c/Wjw2wcvgf8k/m/QcYFHe_EAQAJ,

in which you write

> Such allegations will have no effect other than to antagonize the other party. This is not helpful in fostering constructive debate. Please keep this thread to a simple explanation of the issues at hand [...]

But I have to point out that his allegations do have more effects; and
"antagonizing the other party" is by far not the worst. They are
poisoning our community, are damaging my reputation, and are
detrimental to my mental health.

Dear Matthias,

We now had a chance to look into the comments that you alerted us about
in detail. We decided to hide

Thanks, Julian, for the update.

May I ask where the committee is with the backlog?

Notably <https://github.com/sagemath/sage/pull/36726> ("CI Linux: Replace use of pkill"), which has the full spectrum of violations, and includes Dima openly stating that he uses hostility deliberately.

Should I be resending my reports?

Could you help me out here by pointing to the precise comment that you are referring to? (There's 238 on that PR.)

If you could also refer me back to the message where you reported this originally, I could also double check what happened with that one.
