Dear Matthias,
Thanks for the report. We'll get back to you soon.
David

Hi Matthias,
There are 8 or 9 people who can approve Dima's messages (including several people not on the committee); we're not currently sure who approved it. Speaking for myself (since we haven't had enough time to discuss it thoroughly), Dima's message was clearly inappropriate. We've gotten enough consensus to take action, and have deleted the message from the google group (though of course this does not remove it from inboxes of people who subscribe by email). We will discuss it more tomorrow, and try to get back to you with more details.

I'm sorry that this happened, especially so soon after we asked you to be careful with your language. In this particular instance, I plan on writing in support of your proposal as an individual (rather than a member of the committee).

David

Hi David,
Thanks. I'll note that this the second time --- after his message in <https://groups.google.com/g/sage-devel/c/Wjw2wcvgf8k/m/9JiLmcWFAAAJ> (still there for everyone to see!) --- that Pasechnik intimidates voters by denouncing my call for votes as somehow illegitimate.

May I suggest that a public correction is issued, reminding the community that the purpose of the dispute-resolution process is exactly to involve the Sage community.

Matthias

I'll emphasize that in such situations, just deleting it or "marking as abuse" is not enough.

"The damage done" makes it necessary to act to repair the damage.

Any update on any of this?

Matthias
