Lieber Matthias,

Unfortunately, this week turned out to be more busy and private matters arose so that it is not even possible to meet even with me and John, and even less with the whole committee.

It seemed very important for you to meet with the whole committee, that's why I prepared a when2meet for next week:

<https://www.when2meet.com/?24666432-Ox4ky>

I already put my availability. I would then invite everyone to fill it as soon as possible, and we'll find the appropriate time to meet. If it is not possible, I see 2 choices: 1) meet with a subset of the committee, or 2) delay the meeting. I believe that option 1) is the most reasonable.

Please, bare in mind your time zone when filling in the availability, the applet can deal with that.

Best regards,
Jean-Philippe

P.S. The committee is working around the clock to deal with CoC matters, we understand that you would like to see a faster pace in handling things, we do too.

Thanks very much for preparing this. I've put in my availability.

Of course, I agree.

Thank you for the reassurance, and thanks to all for the work and energy already spent on this duty.

Matthias

Lieber Matthias,

So, everyone has put their availability for next week. After considering the grid, we decided to set the meeting on **Monday April 22nd at 12:00 Eastern time**, which is 9am, West Coast and 18:00 West Europe and 19:00 in Greece, for 1 hour.

During this meeting, we would like :

- 1) to hear your perspective regarding:
 - the past and present situations with Dima, Tobias, Gonzalo (or any other individual) which were problematic.
 - are there things that you think we should know about the situations, that are important and that we might have overlooked.
 - what are your expectations from the Sage community members and the CoCC towards you.
 - how Sage development should proceed from here on.
 - anything else you would like to share to us.
- 2) to share our perspective regarding the same points, reciprocally, and answer your questions if you have any.

The Zoom link for the meeting is:
<https://etsmtl.zoom.us/j/81590155406?pwd=WktsK0VnNFBSZjI4TmZ5Q20rQ2t5Zz09>

Best,
J-P
