Hi Matthias,

Thanks for taking the time to let us know.

If you have write permissions to a repository, you can hide, edit, or delete comments by using the tools described here:

Managing disruptive comments

Additionally, users with admin permissions in a repository can permanently delete an issue from a repository by following these instructions:

Deleting an issue

Keep in mind, you may block users at any time by following the steps outlined in either of the articles below.

Blocking a user from your personal account
Blocking a user from your organization

 If you have any additional details or information to share with us at this time, feel free to do so, and please let us know if we can help in any other way.

Regards,
GitHub Trust & Safety
